

WASTE WATER TREATMENT

WATER LINE

OILING

Alfafloc SC (Balanced Compounds – powder)
Alfafloc M (Liquid compounds – organic/inorganic)
Alfafloc Disoil (Liquid Cationic Demulsifier)

FLOCCULATION

Alfafloc SC (Balanced Compounds – powder)
Alfafloc M (Liquid compounds – organic/inorganic)
Alfafloc P (Cationic flocculants)
Alfafloc C (Cationic Polyelectrolytes - powder)
Alfafloc EC (Cationic Polyelectrolytes - inverse emulsion)
Alfafloc WEC (Cationic Polyelectrolytes – water dispersion)
Alfafloc N (Non-Ionic Polyelectrolytes – powder)
Alfafloc A (Anionic Polyelectrolytes – powder)
Alfafloc EA (Anionic Polyelectrolytes – inverse emulsion)
Alfafloc WEA (Anionic Polyelectrolytes – water dispersion)
Alfadec (Bleaching Compounds)

DISINFECTION

Alfaox 15 (Peracetic Acid – stabilized solution)
Alfaipoclor (Calcium Hypochlorite – granular)

SLUDGE LINE

BIOLOGICAL CATALYSTS

Alfabac 1 (Compounds of bacteria and enzymes – aerobic biological treatment)
Alfabac 2 (Compounds of bacteria and enzymes – anaerobic biological treatment)

THICKENING

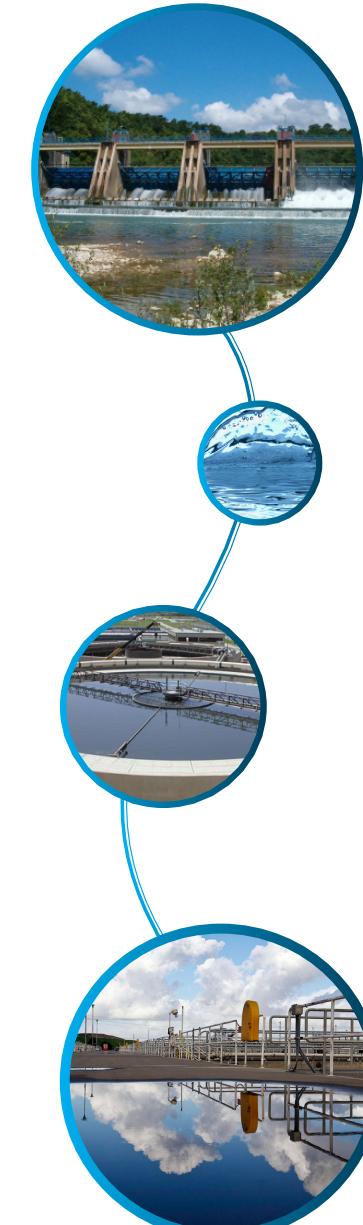

Alfafloc C (Cationic Polyelectrolytes - powder)
Alfafloc EC (Cationic Polyelectrolytes - inverse emulsion)
Alfafloc P (Cationic flocculants)
Alfafloc PD (Cationic flocculant)
Alfafloc M (Liquid compounds – organic/inorganic)

DEHYDRATION

Alfafloc C (Cationic Polyelectrolytes - powder)
Alfafloc EC (Cationic Polyelectrolytes - inverse emulsion)
Alfafloc WEC (Cationic Polyelectrolytes – water dispersion)
Alfafloc A (Anionic Polyelectrolytes – powder)
Alfafloc EA (Anionic Polyelectrolytes – inverse emulsion)

AUXILIARY PRODUCTS

Alfanofoam (Defoamers siliconic and not-siliconic)
Alfabio-F (Nutrients for bacteria – powder and liquid)
Deodorizers (With biological action or just perfumed essences)
Alfacarb (Activated carbon – powder and granular)

DRINKING WATER

WATER LINE

PRE TREATMENT

Alfaox 15 (Peracetic Acid – stabilized solution)
Alfaox K (Potassium Permanganate – granular and solution)

FLOCCULATION

Alfafloc P (Cationic flocculants)
Alfafloc PD (Cationic flocculant)
Alfafloc ADW (Anionic Polyelectrolytes – powder)

FILTRATION

Alfacarb (Activated carbon – powder and granular)
Silica Sand

DISINFECTION

Alfaox 15 (Peracetic Acid – stabilized solution)
Alfaipoclor (Calcium Hypochlorite – granular)

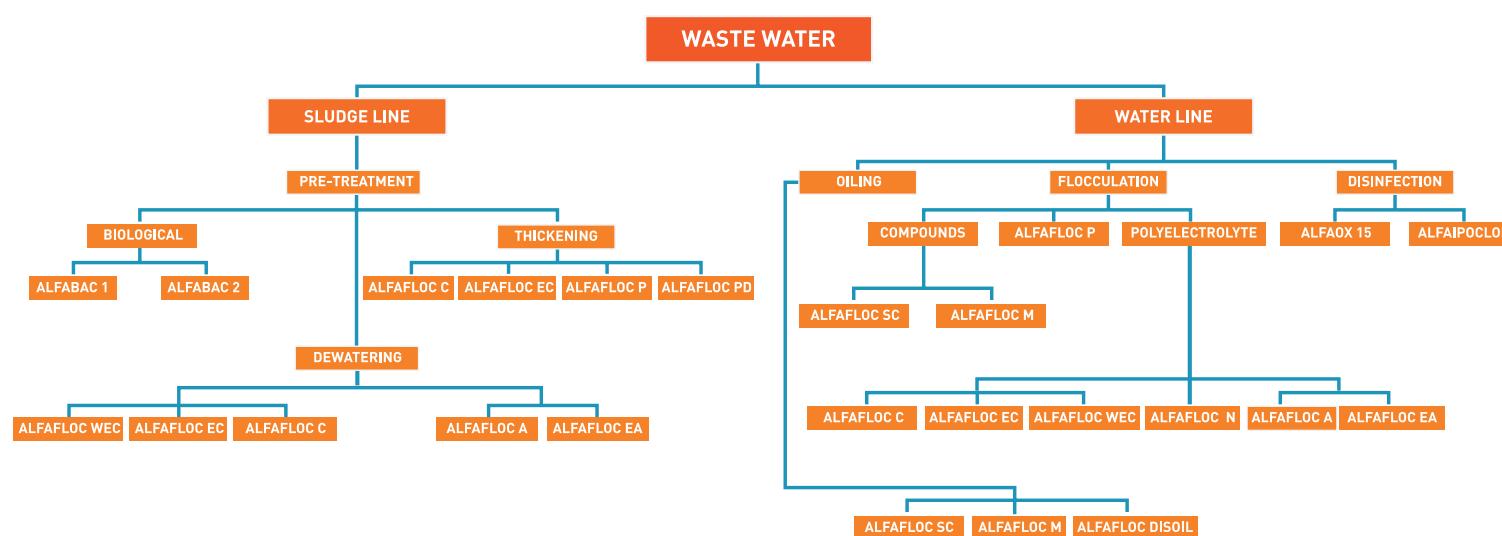

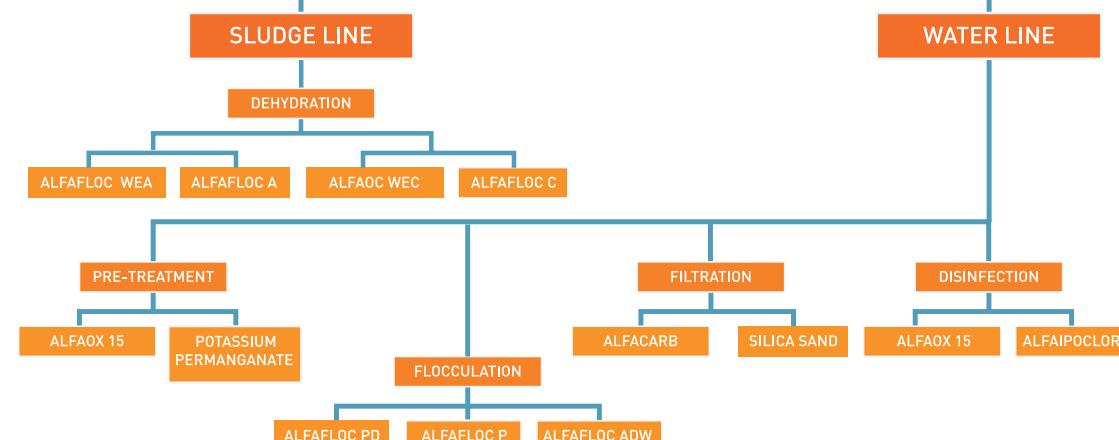

SLUDGE LINE

DEHYDRATION

Alfafloc A (Anionic Polyelectrolytes – powder)
Alfafloc WEA (Anionic Polyelectrolytes – water dispersion)
Alfafloc C (Cationic Polyelectrolytes - powder)
Alfafloc WEC (Cationic Polyelectrolytes – water dispersion)

WATER PURIFYNG PLANT

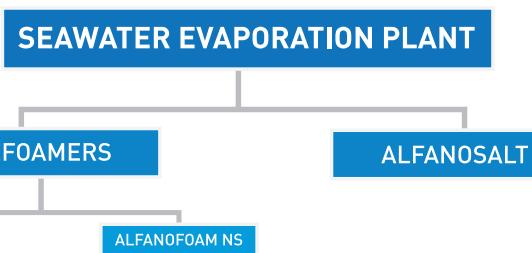

TREATMENT OF SEA WATER (evaporation plant)

DEFOMAMERS

Alfanofoam S (Siliconic defoamer)
Alfanofoam NS (Not-siliconic defoamer)

ANTICALCANTS

Alfanosalt (Antiscaling agent)

INDUSTRIAL PROCESS WATER

BOILERS

Alfaterm A (Antiscaling agents)
Alfaterm F (Coating agent / Filming)
Alfaterm C (Alkalinizing agent)
Alfadeox-L (Deoxygenating agent)

COOLING TOWERS

Alfaterm A (Antiscaling agents)
Alfaquapure T (biocides)

REVERSE OSMOSIS

AlfaRot (Antiscaling agents)
Alfacide (biocides)

SWIMMING POOL

BIOCIDES

AlfaBrome (Substance releasing Bromine – powder or tabs)
AlfaCil (Polybiguanide – liquid)
AlfaClor (S.I.D.C. 56% - substance releasing Chlorine – granular)
AlfaClor-90 (T.C.C.A. 90% - substance releasing Chlorine – granular)
Alfalpochlor (Calcium Hypochlorite 65-70% - powder and tabs)
AlfaOx-P (Substance releasing oxygen – powder and tabs)
AlfaTab (T.C.C.A. 90% - Substance releasing Chlorine – Tabs)
AlfaTabTriaction (T.C.C.A. – Substance releasing Chlorine in Triaction Tabs)

pH CORRECTION

AlfaPhminus-L (Inorganic acids - liquid)
AlfaPhminus-P (Inorganic acid – prills)
AlfaPhplus-L (Alkaline substance – liquid)
AlfaPhplus-P (Alkaline substance – prills)
AlfaPhplus-P/nc (pH correction and stabilization – powder)

FLOCCULANTS

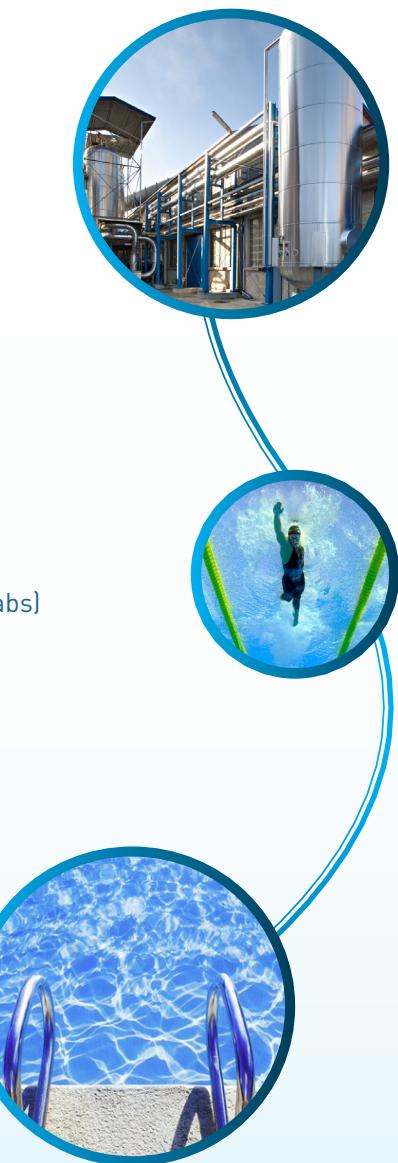

AlfaFloc-L (Slightly acidic substance – liquid)
AlfaFloc-P (Slightly acidic substance – powder)

ALGAE CONTROL

AlfaAquapure-S1 (Slightly foaming liquid compound – suitable for Cl/ Br/ O₂ treatments)
AlfaAquapure-NS (Non-foaming liquid compound – suitable for Cl/ Br/ O₂ treatments)
AlfaSuperaction (Biocide/algaeicide and chelating non-foaming compound – suitable for all types of treatment - liquid)

AUXILIARY

A.C.T.I. (Hydrochloric Acid buffered – also suitable for industrial treatments - liquid)
A.T.I. (A mixture of organic and inorganic acids - liquid)
AlfaQuest (Compound for reducing water hardness – liquid)
Test Kit (for pH / Cl / Br / Cys)
Correctors Alkalinity and water hardness (liquid and powder)
